Feature Button Descriptions

AUTO ANSWER/MUTE Button

Used for extension auto answer, it turns the microphone off during a conversation.

AUTO DIAL/STORE Button

Used for System Speed Dialling and for storing program changes.

CONF (Conference) Button

Used to establish a three-party conference.

Flexible Exchange line Button

Used to seize the Exchange line or access one of several features.

Function (F1 through F12) Button

Used to perform the programmed function or operation.

FWD/DND (Call Forwarding/Do Not Disturb) Button

Used to program the Call Forwarding feature or set the Do Not Disturb (DND) feature.

HOLD Button

Used to place a call on hold.

INTERCOM Button

Used to make or receive extension calls.

MESSAGE Button

Used to call back the message sender.

MONITOR Button

Used for handsfree dialling operation.

PAUSE / PROGRAM Button

Used to enter into Station Programming mode and to exit from Station Programming mode.

Inserts a pause in speed dial numbers or in other numbers

RECALL Button

Sends a Register Recall signal to the central office or to a host PBX to access the system features. If a PBX is not being used, this button can be used to disconnect the current call and start another call without requiring that you hang up.

REDIAL Button

Used to redial the last external number.

SP-PHONE (Speakerphone) Button

Used for handsfree speakerphone operation.

TRANSFER Button

Transfers a call to another extension or to an external destination.

VOLUME Control

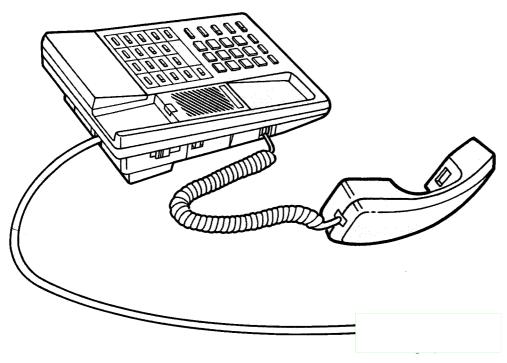

Used to adjust the speaker volume.

SAVE Button

The current dialled number can be saved for later redialling

Connection (for KX-T7130E/KX-T7020E/KX-T7050E)

Connect as shown.

The included telephone line cord

-> Connect to a Digital Super Hybrid System via a Secondary Socket.

Handset/Headset Selection for KX-T7130E

Set the **HANDSET/HEADSET** switch to either

- 1 **HANDSET** (Normal operation).
- 2 **HEADSET** (The SP-PHONE button operates the headset).

Display Contrast Control for KX-T7130E

Set the CONTRAST switch to

- 1 HIGH
- 2 **MID**
- 3 LOW

MEMORY Switch

Not used on KX-TD1232E

VOLUME Control

To adjust the volume level of the speaker

MAX: Loud voice MIN: Low voice

RINGER VOLUME Selector

To adjust the volume level of the ringer

HIGH: Loud ringer LOW: Low ringer OFF: No ringer

Station Programming

Before programming, you need to enter into Programming mode.

When the telephone is idle and Replace the handset or press SP-PHONE;

Press: PAUSE 9 9.

To exit from Programming mode.

Press: PAUSE.

or

Lift the handset.

Flexible Button Assignment

Press the desired Exchange line button.

Dial 1 - 7, + desired number (such as phone number or feature number, if required).

- -1: DSS button
- -2 + desired number :

One-Touch Dialling button

- -3: MESSAGE button
- -4: FWD/DND button
- -5: SAVE button
- -6: Account button
- -7: Conference (CONF) button

Press STORE button.

Note:

To erase an incorrect entry while assigning: press the TRANSFER button.

To clear the assignment: press the desired Exchange line button +2 + STORE button.

Full One-Touch Dialling Setting

Dial **3** .

Dial 1 or 2.

-1: Off

-2: On

Press STORE button.

<NOTE>

Off-hook: Lift the handset or press the SP-

PHONE/MONITOR button.

On-hook: Replace the handset or press the SP-

PHONE/MONITOR button.

Fx: Press Function button "x"

Pressing the MONITOR button can perform handsfree

dialling operation.

Helpful hints for Handsfree operation:

If it is difficult to hear the other party's voice;

Raise the sound level using the Speaker Volume Control.

If the other party has difficulty hearing you;

Lower the sound level.

Absorbing echoes:

Use this unit in a room which has curtains and/or carpeting.

To avoid missing part of the conversations;

If you and the other party speak at the same time, parts of your conversation will be lost.

To avoid this, speak alternately.

If you are using the KX-T7050E, you should assign the following buttons to the flexible buttons beforehand so that you can execute quick operation.

Account button

FWD/DND button

For assignment, see Station Programming (page 10).

Basic Operation

<Making Calls>

- Intercom Calling

Allows you to make a call to another extension.

Pick up the handset or press SP-PHONE.

Dial extension number.

- Outward Dialling

Allows you to make a call to an outside party using one of the following line access methods;

Pick up the handset or press SP-PHONE.

Dial 9 or 81 - 88, or press a Exchange line button.

- 9 : Line Access, Automatic

- **81-88** : Line Access, Exchange line Group

- Exchange line: Line Access, Individual

Dial phone number .

<Receiving Calls>

Pick up the handset or press SP-PHONE.

01

Press a flashing **Exchange line** or **INTERCOM** button directly

Absent Message Capability

There are nine flexible absent messages available. If you select a message, it will be shown on the display of the calling party's telephone. If you are required, messages 7, 8 and 9 can be assigned through System Programming. For System Programming, refer to the Installation Manual of the Digital Super Hybrid System.

<Standard Operation>

Setting

Pick up the handset or press SP-PHONE.

Dial 750.

Dial a **message number** (1-9) + **parameter** (such as extension number, if required).

1: "Will Return Soon"

2: "Gone Home"

3: "At Ext. (extension number)"

+ extension number .

4: "Back at (time)"

+ Enter hour (00-23) + minute (00-59).

5: "Out Until (date)"

+ Enter day (01-31) + month (01-12).

6: "In a Meeting"

7~9: user programmable messages

Replace the handset or press SP-PHONE.

Cancelling

Pick up the handset or press SP-PHONE.

Dial 7500.

Replace the handset or press SP-PHONE.

Account Code Entry

Used to identify outside calls, for accounting and billing purposes. If required, you can be forced to enter an account code before dialling.

<Standard Operation>

Pick up the handset or press SP-PHONE

Dial 49 (or press Account button).

Enter account code + # .

Dial 9 or 81-88, or press an Exchange Line button.

Dial the phone number required.

Alternate Calling -- Ring/Voice

Allows you to select ring or voice calling when making an intercom call. In Ring-Calling mode, you can call the other party with a ring tone. While in Voice-Calling mode, you can talk to the other party immediately after a confirmation tone.

<Standard Operation>

When calling an extension;
To change to Ring or Voice mode
Dial *

Automatic Call-back Busy (Camp-On)

When the selected Exchange line or extension you have dialled is busy, dial the camp-on code and hang up. Your telephone will ring when the called party is idle. When you answer, their phone rings.

<Standard Operation>

While hearing busy tone;

Dial 6.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Background Music (BGM)

Background music, from an external source, is heard through the built-in speaker of the telephone.

<Standard Operation>

Setting / Cancelling While on-hook; Dial 1 .

Busy Station Signalling (BSS)

You can inform a busy extension, which Call Waiting has been set, that you are waiting. The extension hears three beeps.

<Standard Operation>

If a busy tone is heard;

Dial 2.

Wait for an answer.

Call Forwarding

Automatically transfers incoming calls to another extension or to an external destination. The following types are available:

- All Calls

All incoming calls are forwarded to another extension.

- Busy

All incoming calls are forwarded to another extension, when your extension is busy.

- No Answer

All incoming calls are forwarded to another extension, if you don't answer the call.

- Busy/No Answer

All incoming calls will be forwarded to another extension, if you don't answer or your extension is busy.

- to Exchange line

Incoming internal call is forwarded to a Exchange line.

- Follow Me

Allows you to remotely set "Call Forwarding-All Calls" feature from another extension.

<Standard Operation>

Setting

Pick up the handset or press SP-PHONE.

Press FWD/DND (Exchange line) button.

(Or you may dial 710 instead of FWD/DND button.)

Dial as follows:

- All Calls

2 + extension number

- Busy

3 + extension number

- No Answer

4 + extension number

- Busy/No Answer

5 + extension number

- to Exchange line

6 + line access code (9, 81-88)

+ phone number + #

- Follow Me

7 + your extension number

Replace the handset or press SP-PHONE.

Cancelling

--At the original extension

Pick up the handset or press SP-PHONE.

Press FWD/DND (Exchange line) button.

Dial 0

Replace the handset or press SP-PHONE.

--At the destination extension

(Follow Me)

Pick up the handset or press SP-PHONE.

Press FWD/DND (Exchange line) button.

Dial 8.

Dial your extension number .

Replace the handset or press SP-PHONE.

Call Hold

Allows you to hold an extension or an outside call. Press the **HOLD** button.

Retrieving

(Intercom Call)

- At the holding extension

Press the **INTERCOM** button.

- At another extension

Off hook.

Dial **51** + holding **extension number.**

(Outside Call)

- At the holding extension

Press the green **CO** button that is slowly flashing.

- At another extension

Press the red CO button that is slowly flashing.

Call Park

Allows you to "park a call" so that any extension can retrieve it.

Setting

While having a conversation;

Press TRANSFER button.

- Confirmation tone is audible.

Dial 52 + parking zone number (0-9)

Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Retrieving

Off -hook.

Dial 52 + parking zone number (0-9).

- Confirmation tone is audible (optional).

Talk.

Call Pickup

Allows you to answer a call ringing at another extension.

- Exchange Line

Pick up the handset or press SP-PHONE. Dial **4***.

- Confirmation tone is audible (optional). Talk.

- Directed

Pick up the handset or press SP-PHONE.

Dial 41 + extension number.

- Confirmation tone is audible (optional). Talk.

- Group

Pick up the handset or press SP-PHONE. Dial **40**.

- Confirmation tone is audible (optional). Talk.

Call Transfer to Extension

Transfers exchange line or intercom calls to another extension (screened or unscreened).

- Screened

- While having a conversation;

Press TRANSFER button.

Dial extension number.

Wait for an answer and announce.

Replace the handset or press SP-PHONE.

- Unscreened

While having a conversation;

Press TRANSFER button.

Dial extension number.

Replace the handset or press SP-PHONE

Call Waiting

Informs you with three beeps that there is a call waiting.

Setting

Pick up the handset or press SP-PHONE.

Dial 7311.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Cancelling

Pick up the handset or press SP-PHONE.

Dial 7310 .

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

To talk to the new caller, terminating the current call

While hearing call waiting tone;

Press the flashing **Exchange line** or **INTERCOM** button.

To talk to the new caller, holding the current call

While hearing call waiting tone and the Exchange line or INTERCOM indicator is flashing rapidly;

Press HOLD button.

Press the flashing **Exchange line** or **INTERCOM** button. (If both the current call and new call are extension calls, you can skip this step.)

Conference

Allows you to make a three-party conference.

While having a conversation;

Press CONF button.

Dial the third party's number.

Talk to the third party.

Press CONF button.

Do Not Disturb (DND)

Allows you to prevent other parties from disturbing you. Your extension will not receive extension or outside calls.

Setting / Cancelling

Pick up the handset or press SP-PHONE.

Press FWD/DND (F3)* button.

(Or you may dial 710 instead of FWD/DND (F3)* button.)

Dial 1 or 0.

- 1 : for setting
- 0 : for cancelling
- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

* The KX-T7050E will need the F3 button set to operate as a FWD/DND button.

Do Not Disturb (DND) Override

Allows you to call an extension even though Do Not Disturb (DND) is set.

If DND tone is heard;

Dial 2.

Wait for an answer.

External Feature Access

Allows you to access special features (e.g. Call Waiting) offered by a host PBX, Centrex or the central office.

While having a conversation;

Press RECALL button.

Dial the code for the desired service.

Full One-Touch Dialling

This feature automatically activates the handsfree speakerphone and dials a phone number or accesses a system feature at the touch of a button.

Press a **One-Touch** (Exchange line/PF), **REDIAL** or **SAVE** button.

Message Waiting

Allows you to leave a message for another extension. The message waiting lamp gives a visual indication that a message has been received.

Setting

When the called extension is busy or does not answer; Press MESSAGE button.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Cancelling

Pick up the handset or press SP-PHONE.

Dial 700 + extension number .

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Selecting a message from the messages waiting

While on-hook;

Press MESSAGE button repeatedly until the desired message sender appears on the display.

Responding to a message

Pick up the handset or press SP-PHONE.

Press MESSAGE button.

Paging

Provides an announcement (page), through the built-in speaker of the telephone or by the external speakers.

- All

Page through both built-in speakers and external pagers. Pick up the handset or press SP-PHONE.

Dial 62 (or 63)+*

- Confirmation tone is audible (optional). Announce.

- External

Page through all the external pagers simultaneously. Paging to a specific external pager.

To access all external pagers

Pick up the handset or press SP-PHONE. Dial 620 .

- Confirmation tone is audible (optional). Announce.

To access a particular pager

Pick up the handset or press SP-PHONE. Dial 62 + external pager number (1-4).

- Confirmation tone is audible (optional). Announce.

- Group

Page to all groups (all extensions) simultaneously. Page to a particular group of extensions using the built-in speakers.

To access all groups simultaneously

Pick up the handset or press SP-PHONE. Dial 6300 .

- Confirmation tone is audible (optional). Announce.

To access a particular group of extensions

Pick up the handset or press SP-PHONE.

Dial 63 + extension group number (01-16).

- Confirmation tone is audible (optional). Announce.

- Answer

A page sent to the built-in speakers or

the external pagers can be answered by any extension in the system.

Pick up the handset or press SP-PHONE.

Dial 42 + external pager number (1-4) or 43.

- 42 + external pager number (1-4): To answer a page sent to the external pager/TAFAS.
- 43: To answer a page sent to the built-in speaker.
- Confirmation tone is audible (optional). Talk.

Allows you to transfer a call to the paged person.

Press TRANSFER button.

- You hear dial tone and the other party is placed on hold. Dial paging feature number (62 or 63)

Dial additional number . - See "Paging" operation.

Announce.

- When the paged party answers, you will hear confirmation tone (optional).

On-hook.

Paralleled Telephone Connection

Allows you to connect this unit in parallel with a single line telephone (SLT).

This unit can be connected with a SLT.

When a parallel connection is

made, either telephone can be used. The SLT ringing can be enabled and disabled.

Setting / Cancelling

Pick up the handset or press SP-PHONE.

Dial 69 .

Dial 1 or 0.

- 1: for setting
- 0 : for cancelling
- Confirmation tone is audible.

Pulse to Tone Conversion

Allows you to change from Pulse to Tone dialling mode. Dial phone number (Pulse mode).

Dial * + # .

Dial phone number (Tone mode).

Redial

Without lifting the handset, redialling can be activated Pick up the handset or press SP-PHONE with **SP-PHONE** button.

Press **REDIAL** button.

- Last Number

Automatically saves the last outside call number you dialled and allows you to make the same outgoing call again. Pick up the handset or press SP-PHONE.

Press REDIAL button.

- Saved Number

The desired outside call number can be stored and then redialled

Assign a Exchange line button as the SAVE button. See Station Programming.

Storing

While having a conversation or when hearing busy tone;

Press AUTO DIAL/STORE button.

Press **SAVE** (Exchange line) button.

Replace the handset or press SP-PHONE.

Dialling

Pick up the handset or press SP-PHONE.

Press SAVE (Exchange line) button.

Station Feature Clear

Allows you to reset all station features you programmed, to the default settings.

Pick up the handset or press SP-PHONE.

Dial 790.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Station Speed Dialling

Each extension can store up to 10 speed dial numbers which are only available to that extension user.

Storing phone numbers

Pick up the handset or press SP-PHONE.

Dial **60**.

Dial the Station Speed Dial number (0-9).

Dial the desired number *1 + #.

(*1 The line access code is required for an outside call.)

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Dialling

Pick up the handset or press SP-PHONE.

Dial 6 * + Station Speed Dial number (0-9).

System Speed Dialling

The system supports 500 speed dial numbers which are available to all extension users.

Pick up the handset or press SP-PHONE.

Press AUTO DIAL/STORE button.

Dial the System Speed Dial number (000-499).

Timed Reminder

Each extension can be set to generate an alarm ringing at a pre-set time as a wake up or reminder. You can set to be activated once or every day at the pre-set time.

Setting

Pick up the handset or press SP-PHONE.

Dial **761** .

Enter hour (01-12).

Enter minute (00-59).

Dial $\mathbf{0}$ or $\mathbf{1}$.

-0: for AM

-1 : for PM

Dial 0 or 1.

-0: for a one time alarm setting

-1: for a daily alarm setting

Replace the handset or press SP-PHONE.

Cancelling

Pick up the handset or press SP-PHONE. Dial **760**.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

Trunk (Exchange line) Answer from Any Station (TAFAS)

Ringing through the external paging system indicates an incoming outside call. TAFAS allows this call to be answered from any extension.

Same operation as Paging - External Answer.

Voice Mail Integration

When you are busy or absent, your calls can be forwarded to a mail box of the Voice Processing System.

Setting Call Forwarding to Voice

Processing System

Pick up the handset or press SP-PHONE.

Press **FWD/DND** (F3)* button.

(Or you may dial **710** instead of FWD/DND button.)

Dial 2 - 5.

-2: FWD-All Calls

-3 : FWD-Busy

-4: FWD-No Answer

-5: FWD-Busy/No Answer

Dial extension number of the Voice Processing System.

- Confirmation tone is audible.

Replace the handset or press SP-PHONE.

* The KX-T7050E will need the F3 button set to operate as a FWD/DND button.

Playing back a recorded message

Pick up the handset or press SP-PHONE.

Press MESSAGE button.

Feature Number List

This Manual uses the initial factory settings (default value) for feature descriptions. If you change the feature number, use the new one you programmed instead. Additional Required Digits are needed as follows.

Feature	Dial	Dial	Additional Digits
	Default	Your Number	Required

Installing the Card Holder

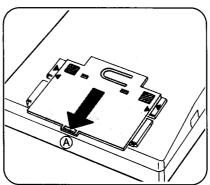

The KX-T7130E, KX-T7020E and KX-T7050E are equipped with a card holder with a memory station card. Follow the instructions below to install the card holder to the unit.

 ${f 1}$ Match the marks the slide rails on the on the card holder and on unit.

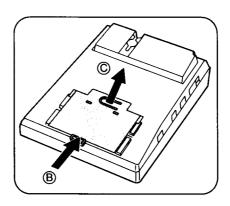

2 Push two shaded portions slightly and insert the edges of the holder under the slide rails and then slide down in direction of arrow "A".

Removing the card holder:

Push the card holder in the direction of arrow "B" while keeping the tip of the holder pulling in the direction of arrow "C".

DSS Console Features

With a Directed Station Selection (DSS) console, the KX-T7040E, you can call an extension, transfer calls and access system features with the touch of a button. The DSS Console must be connected to the Panasonic Digital Super Hybrid System and paired with a proprietary telephone.

Note:

System Programming is required to designate the jack numbers of the paired DSS Console and proprietary telephone. The DSS Console and the Digital Proprietary Telephone should be placed side by side on your desk. For System Programming, please refer to the Installation Manual of the Digital Super Hybrid System.

Location of Controls

32 DSS Buttons with Busy Lamp Field (BLF):

To access an extension, simply press a DSS button. These buttons also can be assigned for a one-touch dialling. The BLF indicates the current status of the corresponding extension.

Off: Idle Red: Busy

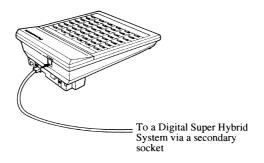

16 Programmable Feature (PF) Buttons:

These buttons, once programmed, let you access various functions with one-touch operation.

Connection

The KX-T7040E Direct Station Selection (DSS) Console requires a Panasonic Digital Proprietary Telephone for proper operation.

DSS Console Features

DSS (Direct Station Selection) Buttons

Use your paired telephone for the operation except for the DSS button. The initial factory settings for the DSS buttons are as follows:

DSS 01-32: extension numbers 201-232

<DSS Button Assignment>

Press PAUSE button + 99.

Press a **DSS** button.

Dial as follows:

- Extension Number 1 + extension number
- One-Touch Dialling 2 + line access code (9 or 81-88) + phone number

Press **STORE** button. Press **PAUSE** button.

<Dialling>

Lift handset or press **SP-PHONE** or **MONITOR** button. Press the **DSS** button.

<Transfer>

A call can be transferred to an extension by using the **DSS** button.

Press TRANSFER button.

Press DSS button.

<One-Touch Transfer>

An outside call can be transferred to an extension with one-touch operation. (System Programming is required. Refer to the Installation Manual of the Digital Super Hybrid System.) Press the **DSS** button.

PF (Programmable Feature) Buttons

Use your paired telephone for the operation except for the PF button.

<PF Button Assignment>

Press PAUSE button + 99 .

Press a PF button.

Dial 2 .

Dial as follows:

- One-Touch Dialling the line access code $(9,\ 81\text{-}88)$ + the phone number
- One-Touch Access for System Features the required feature number

Press **STORE** button.

Press PAUSE button.

<Dialling>

Lift **handset** or press **SP-PHONE** or **MONITOR** button. Press **PF** button.

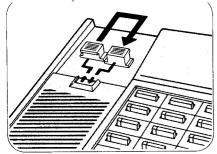

Note:

To erase an incorrect entry while assigning: press the **TRANSFER** button.

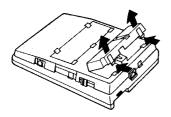

To clear the assignment : press **DSS** or **PF** button +2 +**STORE** button.

Wall Mounting

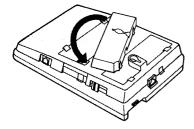

1 Remove the handset hook by pulling it toward the top of the unit. Turn it around and re-insert. (Except for the KX-T7040E.)

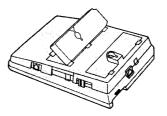

2 Remove the attaching stand.

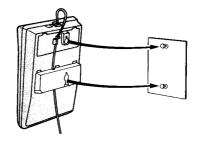

3 Turn it around 180 degrees.

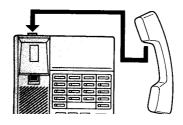

4 Place the stand on the centre line.

5 Mount the unit on the wall.

To temporarily place the handset down during a conversation, hook it over the top edge of the phone as shown. (Except for the KX-T7040E.)

Cautions

The apparatus is designed to be installed and operated under controlled conditions of ambient temperature and a relative humidity not greater than 60%.

Avoid installing the apparatus in damp or humid environments, such as bathrooms or swimming pools.

999 or 112 can be dialled on the apparatus after accessing the Exchange line for the purpose of making outgoing calls to the BT emergency service.

During dialling, this apparatus may tinkle the bells of other telephones using the same line. This is not a fault and we advise you not to call Fault Repair Service.

If the apparatus does not operate properly, disconnect the unit from the extension line cord and then connect again.

Power failure transfer

Even if the KX-T7130E/KX-T7020E/KX-T7050E are connected to telephone line, they will not operate during a power failure.

Others:

If there is any trouble, unplug the extension line and connect a known working phone. If the known working phone operates properly, have the defective phone repaired by one of the specified Panasonic Factory Service Centres. If the known working phone does not operate properly, check the Digital Super Hybrid System and the Internal extension wiring.

Keep the unit away from heating appliances and electrical noise generating devices such as fluorescent lamps and motors.

The unit should be kept free of dust, moisture and vibration, and should not be exposed to direct sunlight.

Do not use benzene, thinner, or the like, or any abrasive powder to clean the cabinet. Wipe it with a soft cloth.

Do not use any handset other than a Panasonic handset for model KX-T7130E/KX-T7020E/KX-T7050E use.

KX-T7130E/KX-T7020E/KX-T7050E are capable of being used in conjunction with hearing aids fitted with inductive coil pick-ups. The handset should be held as for normal conversation. For operation the hearing aid should be set to it's "T" position or as directed in the operating instructions for the hearing aid.

WARNING:

TO PREVENT THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT EXPOSE THIS PRODUCT TO RAIN OR ANY TYPE OF MOISTURE.
